AESTHETICS OF THE FACE. HARDWARE COSMETOLOGY

MECHANICAL CLEANING WITH CARE

Time\min and price\UAH

Oriental Cosmetology

60-90 **1500-1900**

The procedure is aimed at cleansing the pores, removing inflammatory elements and exfoliating the keratinized layer. Washing, cleansing, masks and concentrates.

ULTRASONIC PEELING

Oriental Cosmetology

60 **1150 -1500**

Exfoliation of keratinized epidermal cells, removal of sebum and impurities, deep cleansing and stimulation of cell renewal. Metabolism improves, complexion evens out and skin elasticity increases.

MICROCURRENT THERAPY

Oriental Cosmetology

During the procedure, an active ionized substance is injected using microcurrents: the positive effect is created by the action of the preparation + the therapeutic action of the pulsed currents on the skin and muscle tissue. The result is a markedly beneficial effect: cell structure and functional activity are restored, wrinkles are reduced, signs of aging are eliminated, muscles are restored, and the appearance of the skin and face in general is improved.
